FOUNDATION AND OTHER – EQUITY FORMULA**

**PG. 42**

**SECTION 2.015**

The state's education funding formula was changed in SB 287 (2005) with the changes becoming effective in FY 2007. The previous formula was a tax rate driven formula which provided a certain amount of money per student for each penny of property tax rate of the school district. The current formula follows a student needs philosophy. The new formula is weighted average daily attendance x state adequacy target x dollar value modifier – local effort = state funding. The new formula combines funding from FY 2006 for Equity, Line-14, Exceptional Pupil Aid, Remedial Reading, Gifted, Fair Share, and County Foreign Insurance.

**Legal Basis:** Section 163.031 RSMo.

The increased funding is to provide additional parent education and developmental screen services for young children, in accordance with RSMo. 178.691 through 699. Developmental screenings provide information regarding a child's developmental progress and an opportunity for educators to share early education strategies with parents that they can implement with their child in every day activities in the home. This will allow possible concerns or delays to be caught early and allow time for intervention before the child enters the kindergarten classroom.

As a result of the economic effects of the COVID-19 health emergency, an increase in federal PS authority for the Disability Determinations (DD) program is needed. SSA Regional Office estimates the significant rise in disability claims will require additional DD staff to handle the demand within the DD offices. Funding to support this need is available 100% through federal SSA monies, however, additional federal capacity (only) is needed to expend the funds for this purpose.

FEDERAL REFUGEE PROGRAM**

**PG. 539**

**SECTION 2.175**

The U.S. Department of Health and Human Services provides funding to the International Institute of St. Louis. The International Institute partners with the department to administer grant programs with school districts with the largest number of refugee students. These school districts apply for the funding and the grants support programs designed to ensure refugee children achieve academic performance at a rate commensurate with that of the average of all children in a district. Training opportunities to refugee families and the school personnel are also provided. The funding provides culturally and linguistically appropriate materials, such as special curricula or activities, translation services, and interpreter services for identified families with school-age children. Currently, two traditional school districts (St. Louis and Kansas City) and one charter school (Kansas City International Institute) have been awarded grants.

Continuous Improvement is the beginning of a phased approach to enhance school improvement efforts and tools which would assist school districts and charter schools with these efforts. This will incentivize continuous improvement of school systems to ensure Missouri students graduate prepared for success. This program will accomplish this by continuing to emphasize standards for student performance but will also emphasize leading indicators - inputs in economic terms - that will ensure healthy school systems and the continuous improvement process.

The increased funding is to provide additional parent education and developmental screen services for young children, in accordance with RSMo. 178.691 through 699. Developmental screenings provide information regarding a child's developmental progress and an opportunity for educators to share early education strategies with parents that they can implement with their child in every day activities in the home. This will allow possible concerns or delays to be caught early and allow time for intervention before the child enters the kindergarten classroom.
